

Treasury Information Processing Support Services (TIPSS) / SRA – Case Study

Agency: Internal Revenue Service (IRS)

Project: TIPSS 2: TIRNO-00-D-00020
Period: June 2004 - May 2005

SRA has provided ITM services to the IRS since 1995 under the agency-wide TIPSS 1 and 2 contracts, which include program management; enterprise architecture development and management; software technology assessment; requirements analysis and systems definition; data warehousing and data mining; network management center operations; call center support; knowledge management; configuration management; information assurance and systems security; IV&V; and Web-based application development.

Business Integra has worked closely with the SRA/IRS to improve its IT infrastructure by implementing Tivoli enterprise systems. Business Integra has provided high-end technical solutions on Business Objects (BO) implementation for enterprise wide infrastructure reports, intrusion detection monitoring support, redesign of the existing portal reports, and new executive dashboard reporting system.

Contract: Treasury Information Processing Support Services (TIPSS-2) / IBM
Project: NSF (Name Search Facility)
Period: Jan 2002 - May 2006

Business Integra has also successfully deployed the NSF Release 2 and 3. This release used Taxpayer Information to search Taxpayer data using Identity Management such as partial Last Name or First Name, partial Address etc. Business Integra has assisted FA/NSF section to gather the requirements, design, develop, test and implement this system. This was done in an extremely short time to meet Congressional requirements. In many instances, the staff worked extra hours and during weekends to meet the tight deadlines.

This project also received a special "Thank You" note from the Branch Chief for the successful implementation of NSF project.

START TODAY

In today's market as the companies are relentlessly pushing to compete better, move faster and fight harder, Business Integra Inc is the global solution provider with a single-minded passion: dedicating our systems expertise, industry intelligence and global resources to make your business stronger.
