Result oriented.
Performance focused

Powered by technology & driven by passion

As a leading IT-related services and business solution company, Business Integra offers customized, cost-effective solution in the field of Application Development, Consulting and Management. BI also has a reputed name in the brightest talent for augmenting the human capital requirement of companies.

We thrive on critical attributes such as perfect understanding of the accelerating changes that rule today's global markets, strong teamwork, innovative technology and the ability to deliver results without compromise. We ensure the highest standards of quality through our carefully defined protocols for various tasks. The focus at BI is on bottom-line results, through an amalgamation of technical, operational, strategic and organizational competence.

Solutions.
Not just answers

Adding value. Multiplying returns.

You have unique needs when it comes improving your organization's performance. BI understands this, so we become part of your team - forming practical results driven solutions based on listening, trust and a shared interest in achieving your goals. The result is a strong working relationship and a holistic approach designed to take your organization to a new level of performance in a timely and cost-effective manner.

BI offers clients a series of technology solutions that leverage existing technology by optimizing its effectiveness. We also help clients develop new capabilities that create competitive advantages and we ensure the delivery of technology solutions using the best methods, tools and reusable elements in the industry.

We start with where you
want to be tomorrow

and take you there today...

The reach and depth of our knowledge management expertise drive your organization to the forefront of tomorrow's needs. Our proven track records means you can be confident that our team has extensive experience and our network of alliances provides us with access to leading edge technologies, allowing us to provide you with the finest solutions available. BI has successfully delivered technology solutions to many state and federal agencies in United States and many public sector companies.

3M : Business Integra actively involved in the conceptual design, data modeling, development & implementation and 24/7 on-call support of 3M's data warehousing projects (GEDW).

IRS : US Dept. of Treasury / Internal Revenue Services has launched a mission critical project known as the Modernization of Taxpayer information - Business Integra is working with PRIME contractors to Migrate NCR TERADATA application to OS/390 and Z/OS DB2 UDB as Data Warehousing environments to Modernize (MITS) the entire IRS treasury dept.

Wal-Mart : Business Integra is part of the team in introducing GLOBAL Payroll on Wal-Mart using PeopleSoft.

Cingular : BI is part of the Testing & global assurance team. Through study of requirements are carried-out leading to the preparation of requirement specifications & user interface designs.

At BI, our objective is to improve profitability and productivity of our customers. Our focus is on building long and deep relationships with our clients, and we view ourselves a strategic extension of their capacity and not as an external agency.
